

I'M SO EXCITED!!!

Sometimes, when some kids with autism are excited, they like to show us by doing some of the things below. These may be things that you do as well! Sometimes people with autism may like to do them more often or more intensely, but that's totally normal!

Fill in the blanks with the correct vowel to find out what they are. Circle the things that you do when you are really excited about something!

B_____UNCE

CL_____P H_____NDS

H_____G

T_____LK LOUDLY

L_____UGH & SM_____LE

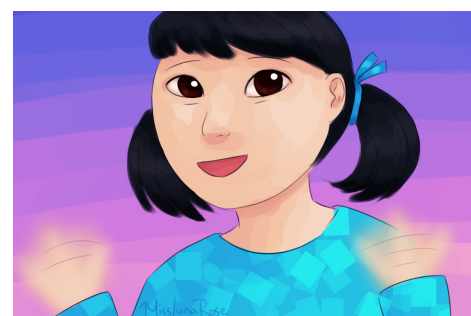

SP_____N

Something that some kids with autism do when they are excited is wave their arms – kind of like a butterfly or a bird! It's very normal and can sometimes shows us how happy someone may be! This movement is usually called:

FL_____PPING
